ABOUT ME

I am ambitious and determined to reach the goals I set. I am excited about problem solving and coding, as well as uncovering insights with data. Of course, I hope to bring excellency and some good vibes wherever I go.

HOBBIES

WORK EXPERIENCE

The Institute of Industrial Research

Stockholm
2021-ongoing

Ramboll Management Consulting

Stockholm
2020-2021

Amnesty International Sweden

Uppsala and Stockholm
2012-ongoing

Research Assistant

I clean, merge and analyze big data from Statistics Sweden (SCB), as well as visualize estimation output. Coding language is mainly Stata, but also Python.

Trainee and Project Employee

Analysis of survey data and cost benefit analyses. I took part in client meetings and evaluations to get a better understanding of a client centered way of work.

Senior Activist and Project Leader

Recruiter and Activist Coach. I plan and execute my projects independently or together with the Recruitment team. Volunteer work.

EDUCATION
